All of which is respectfully submitted.

JOHN HODGMAN,
Town Treasurer.

BEDFORD, March 1, 1879.

SCHOOL REPORT.

In making the annual statement of the condition of the schools in Bedford, I beg leave to report that a good degree of success has attended the instruction given in most of them, the scholars showing decided progress in their studies, and bringing the average of results up to that of former years. In looking over the registers, however, I note an unusual number of marks for non-attendance in some of the schools, which, I presume, is to be attributed to prevailing sickness among the scholars. A number of scholars from this cause have been seriously interrupted in their studies.

The teachers, as a class, have acquitted themselves well. A few, having taught for the first time, lacked in some of those details of government which more experience will doubtless supply; others had to encounter particular difficulties in the management of refractory scholars; but all appeared to be competent to teach under favorable circumstances, and to be conscientious in the discharge of their duties.

Several cases of discipline occurred, for the settlement of which the superintendent was called in. In making his decision upon these cases, it was necessary to consider the general interests of the school and the welfare of the scholars under discipline, as well as the rights of teachers and parents. Having all these views of the case before him, he could not enter into the strong feelings of either party. He takes pleasure in recording the fact, however, that generally his decisions were quietly acquiesced in, and in some cases, although dissented from at first, were afterwards approved.

The public exhibition given in the town hall was a success, so far as it indicated what may be done in this direction in the future. About two-thirds of all the scholars in the town were present, and all the schools except one were represented in the exercises. I here record my thanks to all the parents, teachers, and scholars who assisted me in preparing for the exhibition, and bringing it to

a successful result. The whole amount received for admission was $35.90, from which $1.90 was deducted for expenses, leaving a balance of $34.00 to be divided among the schools, to be expended for wall-maps, reference-books, or any other "helps" which the different schools may most need.

By an act of the last legislature, permission was given the selectmen and superintending school committee of each town, to appropriate a sufficient amount of the school money for the purchase of a "New Map of the State of New Hampshire," for the use of the schools in the several towns in the State. This map gives the counties of the State in strong color lines, and the towns are distinctly colored. Public highways, villages, post-offices, railroad stations, streams, ponds, lakes, hills, and mountains are all clearly shown. The map is especially adapted to the use of schools, and is most useful, as showing the scholars of our public schools the general characteristics of the State in which they live. The price to subscribers is $6. They are supplied to schools at the rate of $5 apiece. Nearly all the towns have subscribed for them. The selectmen, in conjunction with the school committee, subscribed for eleven of these maps, which will be distributed to the schools as soon as published.

The new school register in use among the schools the past year, being differently arranged from those of former years, brings out a different class of facts to be reported. These facts will be found below.

District No. 1.

Teachers. — First and second terms, Miss Olive A. Rowe. Third term, Mr. Frank R. Lane.

	1st T.	2d T.	3d T.
Length of school in weeks of five days each	10	11	11
